proper application, to deliver them over to the said register, whose duty it shall be to receive the same and preserve them among the records of his office.

SEC. 3. And be it further enacted, That patents shall issue, upon the presentation of said certificate of the register and receiver aforesaid, for the said quantity of land not
exceeding more than four sections, to the corporation of the city of Mobile, in the same manner that patents now issue upon the final certificate for other public lands.

CITY DEBT OF 1843.

[Prior to 1842, the city had become so involved, from the loose manner in which its indebtedness had been created and managed, that the creditors had obtained judgment on many of their debts, and were about selling the city property.]

On the 2d March, 1842, the finance committee of the two boards made the following report:

REPORT OF THE FINANCE COMMITTEE OF THE BOARDS OF ALDERMEN AND COMMON COUNCIL OF THE CITY OF MOBILE.

In laying before our fellow citizens a view of the present situation of the affairs of the corporation, with the purpose of presenting to them a plan of immediate relief from embarrassment, and ultimate liquidation of the city debt, which, if adopted by the present boards, and concurred in and observed by the future authorities, will enable the city to reduce its expenditures, restore its credit, and provide for the extinction of its debts, it is deemed not unimportant to review the operation of our affairs under the amended charter of 1839 and '40. To do this and show the state of affairs when that amended charter went into operation, we would present again to our fellow citizens a portion of the report of the finance committee, made on the 27th March last, as follows:

"The committee appointed on the comptroller’s books found them so arranged, that, in the language of the comptroller of the preceding year, ‘for the purpose originally designed—to present at all times a complete view of the debts, credits, resources, liabilities, and general financial condition of the city—they were comparatively useless.’ No interest account or bond account, except for the funded debts; no cash account at all, nor account of canceled orders appeared on the books of the comptroller."
The books of the clerk of the corporation, the comptroller and treasurer, had but little relation to each other, and were almost as distinct and separate as if representing the concerns of so many different corporations. Prior to the organization of the office of comptroller, the affairs of the corporation appear to have been managed most loosely. The records of proceedings up to the year 1838 were without index, the financial affairs without system, or entire engrossment anywhere; some of the books have been lost, and the papers and documents, important and unimportant, thrown loosely into boxes and baskets, lying mostly unlabeled, and in a confused and promiscuous heap. The books of the comptroller's office for the year 1837 and 1838, are unbalanced and confused. Since that period, they have been, with the books of the treasurer likewise, annually balanced; the latter, however, by throwing the balance of all debits and credits into one account of the "city of Mobile," thus leaving, in the hands of the succeeding treasurer, the books, without any open accounts, however important, and placing out of view those nominal accounts which made a part of the indebtedness of the city. How much of importance has been obscured by this practice, the committee were unable to determine.

Receiving the affairs of the corporation as herein represented, the committee had a difficult task to perform. In their investigation during the municipal year, to go beyond the period when the office of comptroller was established was impossible. To attempt to thoroughly examine and balance the comptroller's books of 1837 and 1838, while bringing all the affairs into a better system, they believed would delay their more important objects, and might, after all, with their imperfect knowledge of the affairs of those years, be attended with no result so satisfactory as to compensate for the labor and the delay. The committee, therefore, turned their attention first, to ascertaining the indebtedness of the city, taking for their platform the comptroller's books and accounts, as transferred to them. In their investigations, they have found that the funded debt, as then represented under the head of city bonds, is prob-
ably correct. They then investigated the issue of bonds of $100 each, on 1, 2 and 3 years' time, and found of these remaining unpaid, the amount of $32,200. Their next investigation was the issue of city orders, or orders of the clerk of the corporation on the treasurer. The city had no means of ascertaining the amount of city orders unpaid, that were issued prior to the period that the present clerk of the corporation entered upon his official duties; they presume, however, the amount is small, as few in number, and inconsiderable in amount, have appeared within the last two years. Of the orders issued during the time the present clerk has been in the service of the corporation, which are all regularly registered and numbered, they ascertained that there remained unpaid, up to the period of their investigations, the amount of $43,263 38. It was found impossible to ascertain the amount of interest due by the corporation, as the items of payment had, in previous years, been entered to different accounts in the books of the treasurer, without specifying whether they were coupons, interests on coupons, or interests on other debts; neither could they ascertain satisfactorily the amount of change bills in circulation. The issue of these had been blended in the books of the treasurer through different accounts; at one time on account of "corporation change bills," at another, "old change bills," and at another, "change bill committees," and each year, through the system before referred to, these were balanced by being debited or credited to the "city of Mobile," and were thus thrown out of the action of each successive board. The committee raised no account in the books that had not received as full an investigation as it was in their power to give, hence some individual indebtedness to the city, and other accounts, do not appear in their statements, as the committee to whom these were referred, had made no report. None, however, of these, affect at all the indebtedness of the city: hence, likewise, the indebtedness for interest due and unpaid, and for change bills unredeemed, or for old claims not yet presented or recognized, does not appear in the statement from the comptroller's books. From the investigation, the committee have given the latter, they do not think, taking into consideration
the amount probably lost, worn out, and destroyed, that there will ever be presented for redemption much over $20,000. Every year of their circulation will probably lessen the amount that will appear for redemption.

The committee found on the comptroller's books an account termed the "city of Mobile," to the credit of which there was standing a balance of $6,590 81. To this account they have placed all the results of their investigations, all the balances of department accounts of the previous year, and the settlement of all contracts of former boards. The balance of this account is now $106,721 79. The account is better explained by stating it as follows:

CITY OF MOBILE.

The systems now introduced into the books of the various offices is as follows, viz.: No payments or appropriations are made but by resolutions or orders of the two boards.
For these, orders are drawn on the treasurer from the office of the clerk of the corporation, which orders are numbered, and registered and engrossed in department books of accounts as follows, viz.:

No. 1, Payments of - - - guard,
" 2, " " " - - - laborers.
" 3, " " for - - - horses and carts.
" 4, " " of - - - fire department.
" 5, " " - - - old contracts and accounts.
" 6, " " - - - salaries of officers.
' 7, " " - - - miscellaneous.
" 8, " " - - - account of city hospital.

These department books are engrossed on the books of the comptroller to the debit of the several departments, and credit of the individuals in whose favor the account appears. The orders drawn in settlement of these claims are, by the comptroller, placed to the credit of the "office of clerk of the corporation," and debit of the parties. When paid or received by the treasurer, they are on his books entered to an account with the comptroller, while the receipts and disbursements of the treasurer appearing under the various departments of annual resources and payments, are monthly transferred by him to an account with the comptroller. The statements of the treasurer are engrossed monthly by the comptroller, and the items placed to their respective accounts, the orders paid or received by the treasurer, being placed to the debit of the "office of the clerk of the corporation." Thus the whole transactions of the corporation are spread upon the books of the comptroller. The balance of the account of "office of the clerk of the corporation," shows the orders unpaid, the account with the treasurer shows the transactions of that department. Weekly statements are rendered to both boards by the receiving and disbursing officers. These are audited monthly, the engrossment of accounts by the comptroller examined, and his statements rendered quarterly.

This elucidation the committee deemed necessary to show the system adopted and as explanatory of the subjoined statement of the comptroller's books at this close of muni-
principal year. It is proper to state here, that a complete index has been, by the comptroller, prepared for all the old record books that were without one, and that the papers and documents so loosely left by the former boards, are in the process of being arranged and filed. With this view of the arrangement of city affairs, commenced under the operation of the amended charter of 1839 and '40, we would now present a transcript statement or balance sheet of the books of the comptroller's office on the first of January, 1842. It will be recollected that these books are kept by double entry, a system perfect of itself, but generally familiar to mercantile men, and that all the operations of city affairs since March, are thereon engrossed, as well as other affairs prior to that date, which the investigation of the committee could fully arrive at.

CITY DEBT OF 1843. 325
As has already been represented in the foregoing extract of a former report, the first boards, under the amended charter of 1839 and '40, had to strike out systems where confusion and disorder existed, and ascertain the situation of city affairs, where no proper representation of them had, for a long time previous, been made. Their efforts, therefore, to introduce economy into the administration of city affairs, and to arrive at any attainable object of relief to the fiscal embarrassments of the city, was impaired by the condition in which they found its affairs. A large floating debt, consisting of city orders, change bills, coupons of interest, and other obligations, had placed the corporation in a position that it could collect nothing in cash or current bank notes, but the whole of its revenue and taxes was to be received through its own indebtedness, and its expenditures to be made by a continued issue of corporation orders. Hence, in the posture of affairs, in the consequent impaired credit of the city, these orders were at a discount, varying through the year from ten to thirty per cent., and at an average of at least 20 per cent. for the year. At this ruinous rate, therefore, the city paid her expenditures and her obligations. Without any correct data on which to act, and under such circumstances, to provide for the public exigencies, restore the public quiet and security, investigate the fiscal situation of the city, and introduce economy in the administration of affairs, was a task of no ordinary magnitude, however favorable to these, was the amended charter of 1839 and '40. The extract from the report of the finance committee of the 27th of March, 1841, will show the results of the investigation of affairs during the last year, and the following will show the

results of the economical efforts of the boards, both in 1841 and this year:

In the year 1841, the receipts from taxes and other revenue amounted to, - - - $108,112 63
The expenditures for police purposes amounted to, - - - - - $62,531 57
Claims for do. presented and paid since, - 3,994 49

Saved and appropriated in liquidation of the floating debt, - - - - - - $41,586 57

For the three-quarters ending the 1st of January of this year, there appears the following difference from the expenditures of 1841, viz.:

Expenditures to the 1st Jan., 1841, - - - - - $51,688 41
Do. to the 1st Jan., 1842, - - - - - 36,546 53

Amount of decrease in expenditures of 1841 and '42, for nine months, - - - - - - $15,141 88

Early in the course of the investigation of the affairs of the corporation, the chairman of this committee was impressed with the idea that if he could reduce the floating liabilities due immediately to our citizens in the form of corporation orders and change bills to a point that, through the receipts of a year they could be absorbed, and at the same time leave sufficient to pay the reduced expenditures of the city, the corporation might fund the amount of interest due, and any other liabilities that would appear, and thus resume cash receipts and cash payments, thereby saving in the expenditures of the corporation 20 per cent., or one-fifth of the present amount of expenditures, and through this restoration of the public credit, and ameliorated condition of the finances, prepare the way for a final extinction of the city debt, without placing on the citizens any additional and onerous burdens. In this view the committee have concurred, and with the hope of accomplishing this object, the course of city affairs have been in no small measure conducted. The opportunity of accomplishing these objects is now presented, and the situation of city affairs for the first time presents an aspect favorable to the purpose. The following is a statement of the city debt, with-
out including the immediate liabilities in the form of corporation orders, viz:

Bonds issued as per general statement, - - - $525,435 00
Bills payable, due bank (with interest), - - - 29,714 64

$555,149 64

Amount of interest due by estimate, - - - 100,000 00
Making - - - - - $655,149 64

We have a claim on government, recognized, and arranging on principles of equity, assigned for payments of the banks, which we presume will cover that debt and interest. It is therefore deducted, - - - - - 29,714 64

Leaving the amount, - - - - - $625,435 00
We estimate to cover all other liabilities that may possibly appear, and a possible greater amount of interest that may be due, an amount to make a debt of $650,000, viz., 24,565 00
Making a city debt of, - - - - - $650,000 00

The assets of the city, as per assessment of 1837, amount as follows:

Real estate, as per assessment, - - - - $495,900 00
Bills receivable, notes due, - - - - 2,916 00
Stock in Cedar Point Railroad, - - - - 10,000 00
Bonds of school commissioners, - - - - 15,000 00

$523,816 00

Of these, the railroad stock, - - - $10,000 00
and bills receivable, - - - 2,916 00
are worth nothing, therefore deducted, - - - 12,916 00

Leaving the estimated value of real estate, 495,900 00 $510,900 00
And bond of school commissioners, which is perfectly good, - - - 15,000 00

What would be the proper value of this real estate at the present time, and under present circumstances, the committee do not and cannot pretend to judge. It has been assigned for the benefit of the creditors of the city, and the trustees have advertised the city property for sale under the deed of assignment in May next. It has been supposed that those holding the bonds of the city, and coupons, would pay more for this property than, if otherwise sold, it would probably bring; but it must be understood that
these bonds and coupons are mostly held by aliens, who, under the present disposition of our legislators, would not, probably, be permitted to improve it, and therefore they would not be likely to purchase, and hence the general expectation of an advantageous sale might not be realized. The committee are therefore induced to present a plan of relief from the present embarrassments, and a restoration of cash payments and receipts by the city treasury for the ensuing year. They find that those holding city bonds and coupons to nearly if not quite, two-thirds of the whole amount of these, are willing to extend those bonds to twenty years from this period, and to fund the amount of coupons now due for the same time, upon a pledge of the city property for the payment of the bonds at maturity, and a portion of the annual revenue for the payment of the annual interest. Predicated, therefore, upon the possibility of effecting such an arrangement, the committee submit to their fellow citizens the following plan: That the coupons and such other liabilities as may appear that can be so arranged, be funded, and that new bonds be issued for the amount of these, and of the bonds already issued, bearing date 1st April or May next, and having 20 years to run, the interest payable annually, and such as are given for bonds already issued, to bear the same interest as those they redeem, but the bonds given in settlement of coupons to bear an interest of 6 per cent. only.

That the city square, and such other unimproved property as will produce $200,000, if sold on ten or twenty years' time, be so disposed of, payable in ten annual installments, commencing in ten years from the date of sale, with interest at 6 per cent., payable annually, mortgages to be given to secure the payments, and an obligation to improve the property within some given period.

That these mortgages and other city property be assigned in trust to secure the payment of the bonds.

That it be recommended to the boards of aldermen and common council, to pass an ordinance requiring the receipts and payments in the transactions of the corporation to be made to and from the city treasury, in current bank notes,
on and after the 1st day of April next, and requiring the authorities to make arrangements for the payment from their receipts, of the interest upon the city debt for the ensuing year.

That a memorial be drawn and presented to the legislature at its next annual session, making it obligatory on the corporation of the city to reserve and set apart from the annual tax on real estate, the sum of $12,000 dollars each year, for twenty years, and at the close of each municipal year to appropriate the same in payment of the bonds now given by the city; making it obligatory likewise, to use said taxes on real estate for no other purpose, besides the one last mentioned, than for police expenditures and repairs of streets; making it obligatory, also, to set apart and appropriate each year so much as may be necessary of all other revenue, for the payment of the interest due on the city bonds; making it obligatory, likewise, to set apart and use for no other purpose, the $200,000 received from the sales of property, than in payment of the above mentioned bonds. Said obligation, in reference to the sinking fund for the payment of bonds, to be void only by a payment or a liquidation of said bonds, should it be in the power of the corporation to liquidate them at an earlier period than the twenty years named.

The committee have to observe, in presenting this plan, that the sum of $12,000 each year, with the avails of sales of city property to the amount of $200,000, will, at the end of twenty years, extinguish the city debt.

The operation of the resumption of cash payments the ensuing year is presented in the following statement:

At the close of the ensuing municipal year, the city will be relieved of the amount of corporation orders and change bills, and her condition improved in the sum of $40,000, which sum, less the sinking fund of $12,000—say $28,000, may so much reduce the property tax, or be expended in improving the condition of the streets while in the restored credit of the city, in the gradual extinguishment of the debt, and in the lessened payments of interest, the condition of the city thenceforth will be every year improving. The details of carrying out the measures for the ensuing year, must be left to the wisdom of future boards, but it may not be improper for this committee to suggest, that in succeeding years, two distinct sources of revenue be placed, as collected, in two different banks of the city, and only drawn for, as appropriated to the distinct objects of payment, by check of the mayor, countersigned by the treasurer, and that no checks be given at any time in advance of deposits, or but in necessary payments by orders, or by resolutions of the boards. The property tax to be placed in one bank, the other revenues as collected to be deposited in another.

These statements and views are submitted with great deference and respect to all who feel an interest in city affairs, and regard the common weal and public prosperity.
Our fellow citizens, we are aware, must desire some change in the financial condition of the city, and such a change as will protect its honor, reduce its expenditures, and provide for the ultimate extinguishment of its debts; such a change as will prevent fraud or speculation, inspire a confidence in the future, and give a healthy moral tone to public sentiment in the improved and improving condition of the affairs of this city. That such will be the effect of the measures suggested by the committee, that they are the wisest and the best in the present embarrassed condition of the corporation, the committee have too great diffidence in their own ability and judgment to assert. They offer them for public consideration, for the mature reflection of all most deeply interested in the welfare of the city, and for public expression upon their propriety and probable results. In presenting them, the committee have no motive beyond the public good. Their period of service in the affairs of the corporation expires with this municipal year, and they have neither the desire nor the expectation of participation in the future management of city affairs. They deemed it important, now, while the opportunity and the aspect of city affairs were favorable to some important change, desirable and beneficial in the future, to present these statements, and these views, and they are respectfully submitted to their fellow citizens.

[At the request of the mayor, aldermen and common council of the city, a meeting of the citizens of Mobile was held on the 7th of May, 1842, to devise means to relieve the city of its embarrassments. The result of which was that the mayor issued the following circular to the creditors of the city.]

MAYOR'S OFFICE, CITY OF MOBILE, Nov. 14th, 1842.

The unparalleled embarrassments that have pervaded the whole country have been severely felt by the city of
Mobile; and to these have been added the calamities of fire and disease. Under circumstances thus aggravated, it has been utterly impracticable for the city to meet the annual payment of interest on its funded debt, its annual expenditures for police purposes, and the payment of a floating debt created by her necessities, and her annual expenditures. By economy, within a few years this floating debt has been nearly extinguished. The funded debt of the city, as represented on the books, stands as follows:

Coupons of interest now due on this, with other debt to be provided for, would not probably exceed the sum of $137,000 00

Making this class of the city debt the sum of $650,000 00

The city now holds a large amount of valuable property, which, at this period, could not be made available for the payment of the interest and other debts now due, but which at some future period would go far to the extinguishment of a large portion of the whole debt. On the 16th of May, 1840, the city made an assignment of all its property to seven trustees, for the benefit of its creditors. This trust expires on the 16th of May next, ensuing—and the trustees would be compelled to sell or lease said property in the intermediate time. The avails of such sales, at this period, would pay but little to the creditors. I am therefore instructed by resolutions of the boards of aldermen and common council, to propose to the creditors the following arrangement:

That the bonds now held by them be exchanged for new bonds, bearing date at twenty years, and bearing an interest of 5 per cent. per annum; that the coupons for interest now due be funded, and bonds of a similar character, bearing the same date and the same rate of interest, be issued therefor. That these new bonds bear
an agreement for payment before maturity, as the city may provide therefor, in numerical succession, that is—No. 1 first, and so on. It is further proposed that an equation be made of interest on the bonds now held, by which the parties holding bonds at different rates may in the reduction of interest on the new bonds be placed on an equal footing. Beside the property already assigned in trust, which may be re-assigned, the following further security is proposed for the payment of annual interest, and the ultimate and progressive payment of the debt, viz.: an Act of the legislature now in session, the passage of which will now be asked, of the following purport:

Section 1. Providing for the purchase and holding of lands by alien creditors under sales made by the trust above mentioned, free from all claims of the State now or hereafter by reason of the alienage of such purchasers.

Sec. 2. Authority by the State for the issue of the new bonds above proposed.

Sec. 3. For the better security and payment of said bonds, an annual fund to be created and maintained by said city, of $10,000, for which and for payment of the annual interest of 5 per cent., the taxes accruing on assessments of real estate shall be pledged—and said taxes not to be reduced below a rate sufficient to produce said annual fund and the annual interest, until the obligations created in pursuance of this Act shall have been paid.

Sec. 4. Provision for the payment by the collector of taxes annually to the Alabama Life Insurance and Trust Company, of sufficient amount for the purposes stated in the preceding section, and for the payment of interest and bonds, the latter in numerical succession, by said company.

Sec. 5. Provides power to levy additional taxes by granting licenses to all trades and professions.

Sec. 6. Providing power to levy a tax of 1\(\frac{1}{2}\) per cent. on auction sales, excepting sales under judicial proceedings, guardians, administrators' sales, &c.

Sec. 7. Providing power to assess a tax on public amusements, games, shows, exhibitions, &c.

Sec. 8. Providing that at the close of each municipal
year, all sums exceeding $5,000, after defraying the necessary annual expenses, shall be paid over to the Alabama Life Insurance and Trust Company, and be by them applied to the payment of obligations created in pursuance of this Act in numerical succession.

Sec. 9. Providing that in case of default by the corporate authorities in any of the duties prescribed by this Act, the court of chancery, or any court having chancery jurisdiction in Mobile county, shall be open to all and every holder of obligations issued in pursuance of this Act, and full powers given to said court to enforce the performance of this Act, with powers to said court to appoint another depository upon a showing by the corporate authorities or the holder of any obligations of the city, that the Alabama Life Insurance and Trust Company is no longer a proper depository of the funds pledged.

Sec. 10. Providing that after the 1st of November, 1843, and after issue of the above mentioned obligations, the corporate authorities shall issue no city orders or promises to pay, transferable from hand to hand, nor enter into any contract for the payment of money, unless the means are specially provided for said payment at the period of making said contract.

Sec. 11. Provides for rules and regulations for the collection of newly raised taxes, and for the imposition of fines and penalties for violation of the provisions of this Act.

Sec. 12. Provides that corporate authorities shall be under no obligation to enforce or carry into effect the provisions of this Act unless three-fourths in amount of the creditors shall signify their assent to the proposed arrangement by written communication to the mayor on or before the 1st of April, 1843.

Such is the arrangement proposed, such the security offered for the future payment of interest and eventual payment of the debt. It is an effort made with the high and honorable purpose of meeting the payment of the debt and interest in good faith. It is considered that the security thus offered, in addition to the property pledged, the avails of which will be hereafter, as disposed of, appropriated to the
extinguishment of the debt, is ample compensation for a reduction of interest, so necessary to enable the city to meet with punctuality its new engagements, which will be created by the acceptance of this arrangement.

As the holder of some of the existing obligations of the city, your assent or dissent to the propositions herein made is desired as early as practicable. You will please state in your reply the amount of bonds or coupons for interest, held by you, or of which you have the control.

CHAS. D. HOPPIN,
Mayor.

[And the Act of the 11th of February, 1843, was adopted: To enable the Corporate Authorities of the City of Mobile to provide for the security and payment of the Debts of said City, and for other purposes.]

SECTION 1. Be it enacted by the Senate and House of Representatives of the State of Alabama, in General Assembly convened, That all and every purchaser or purchasers of lands or interests in lands, conveyed by the corporate authorities of the city of Mobile, for the security of certain debts, by indenture, bearing the date, sixteenth day of May, A. But it is hereby declared to be the leading object of these presents to provide for the sale of said property, that the debts aforesaid may be fully paid, and that the exercise of the last mentioned powers of lease and mortgage shall not be made unless the said parties of the second part shall be satisfied that the same is to the interests of the said parties, and that the fulfillment of the objects of these presents will be advanced thereby. In testimony whereof the said parties of the first part have caused their seal to be affixed to these presents by Edward Hall, he being specially authorized by them the same so to do this day of May, in the year of our Lord eighteen hundred and forty, and the parties of the several parts hereby testify their acceptance of the trustee and assent to these presents, this sixteenth day of May, in the year of our Lord eighteen hundred and forty.

Under the Act of 1843, S. P. Bullard was appointed commissioner to find the debt he reported Oct. 17th, 1843. July 23d, 1844, a committee was appointed to examine the report; Hindman Barney, from council, Solimon I. Jones, from aldermen, who reported Oct. 15th, 1844, that the new bonds issued by Mr. Bullard, as per his book of record, amount to $706,191 18, being for 469 bonds each for $1000, $469,000; 6 bonds each $5000, $30,000; 80 bonds each for $100, $8,000; amount of coupons and interest due on the above, and also equation of interest, $199,191 18. This statement is to 8th July, 1844, agreeably to Mr. Bullard's letter of that date, addressed to his Hon. the mayor. There are yet outstanding fourteen of the old bonds, each for $1,800, and also some of the small bonds, each of $100. The amount of the latter must, however, be small. It is probable, that when the whole debt of the city is settled, the amount will be $725,000.

APPENDIX.

By the Code of Alabama, Pilotage is regulated as follows:

§ 899. Five persons must be appointed by the governor, upon the recommendation of the presidents of the several insurance companies of the city of Mobile, to be styled commissioners of pilotage of the bay and harbor of Mobile, who hold their office for the term of six years, and until their successors are appointed, and before entering upon the duties of their office, must take and subscribe an oath faithfully to perform the duties thereof.

§ 900. Should the presidents of such insurance companies, or a majority, fail for thirty days after the term of office of the commissioners expire, or upon the death, or resignation of any of them, to nominate to the governor suitable persons to fill the office, he must forthwith make such appointment, and should the governor fail for thirty days to make the appointment to fill a vacancy, it may be filled by the surviving members, and the person so appointed holds for the unexpired term of his predecessor.

§ 901. The commissioners, or a majority of them, have power to grant licenses to persons to act as pilots, for either of the bars of the bay of Mobile, having ascertained their fitness by such inquiry and examination as they may be enabled to make, and upon the certificate of not less than three nautical men, appointed by them for that purpose, that the applicant is well acquainted with the pilot grounds, currents, etc., of the bay, and is qualified to manage and work vessels; but not more than thirty pilots must be appointed for the lower bar of Mobile bay, and not more than ten for the bar of Dog river.

§ 902. The commissioners must give to every person appointed by them, a certificate of his appointment, which must be signed by a majority of the commissioners, or by their chairman, by their direction, requiring him previously to take and subscribe the following oath, which one of the commissioners may administer.

I, A. B., do solemnly swear, (or affirm, as the case may be) that I will faithfully, and according to the best of my skill and judgment, perform the duties of a pilot for the
bay and harbor of Mobile, and will at all times, wind, weather and health permitting, use my best exertions to repair on board all ships or vessels which I shall see and conceive to be bound for, coming into, or going out of the harbor or bay of Mobile, unless I am well assured some other licensed pilot is then on board the same. That I will, from time to time, and at all times, make the best dispatch in my power, to convey safely every vessel committed to my charge, coming into or going out of the harbor or bay of Mobile, and will at all times well and truly observe, follow and fulfill, to the best of my skill and judgment, all such orders and directions as I may receive from the commissioners of pilotage, relative to all things appertaining to the duty of a pilot. That I will not be interested, directly or indirectly, in the earnings of more than two pilot boats, nor in the earnings of any combination or co-partnership of pilots, composed of more than ten pilots, nor will I be a member, at the same time, of more than one combination or partnership of pilots, so help me God.

§ 903. Before receiving his license, the pilot must make and deliver to the commissioners a bond, payable to the chairman of the board, and his successors in office, in the penal sum of two thousand dollars, with surety, to be approved by the commissioners, and with condition, faithfully to perform his duties as pilot, which must be renewed every six years.

§ 904. The commissioners have power, and it is their duty to prescribe rules and regulations for the government of the pilots, and to prescribe the fees for their services. They may also impose such penalties for neglect of duty, not inconsistent with this law, as they may think proper.

§ 905. The commissioners may deprive any pilot of his license, for a wilful violation of his duties, or the orders or regulations of the commissioners, for negligently or carelessly losing or injuring any vessel in his charge, or when laboring under mental derangement, or so addicted to habits of intoxication as to be unfit to be intrusted with the charge of a vessel.

§ 906. Any pilot who fails to act as pilot for three months, or absents himself for ten days, at any one time,
from the bay or harbor of Mobile, without leave of said commissioners, or a majority of them, may be deprived of his license, and if, at any time, any vessel in the bay or harbor of Mobile is in charge of any civil officer, in virtue of process from any court of record of this State, and any pilot with knowledge thereof, conducts or pilots such vessel out of the bay or harbor of Mobile whilst in charge of such civil officer, such pilot forfeits his license, and is forever disqualified from acting as pilot, and also forfeits such sum as the jury shall assess.

§ 907. Every pilot boat cruising or standing out to sea, must offer the services of a pilot to the vessel nearest the bar, unless a vessel more distant is in distress, under the penalty of fifty dollars for each and every neglect or refusal, either to approach the nearest vessel, or to aid her if required, or to aid any vessel in sight showing signals of distress, and the commissioners, or a majority of them, for such neglect or refusal, may deprive the pilot of his license.

§ 908. The pilot who brings a vessel into port has the exclusive right to take her out, unless the master of such vessel proves to the satisfaction of the commissioners that such pilot misbehaved himself whilst in charge of the vessel, or has in the meantime been deprived of his license, and, in either case, another pilot may be employed. Any pilot having the right to take a vessel out of port may attend in person, or procure another person out of the pilot boat to which he is attached, to attend for him; but if he fail to attend, or substitute another in his place, the master of the vessel having given notice, as hereinafter required, of his intended departure, is at liberty to employ another pilot, who must, if not previously engaged, pilot the vessel out, and is entitled to the fee therefor.

§ 909. Any person who pilots a vessel out, not being entitled to do so, is liable to the pilot who had the right for the amount due or paid for carrying the vessel out.

§ 910. A pilot who has brought a vessel into port, is entitled to his fees before her departure from port, to be paid in advance, or security given for the payment, and on failure thereof may refuse to carry the vessel out.
§ 911. Any person piloting, or conducting any vessel in or out of the bay of Mobile, or over any of the bars thereof, without a license as pilot, or who has forfeited or been deprived of his license, is entitled to no fee or reward for the service, and every such act is a misdemeanor, and, on conviction, such person must be fined one hundred dollars; but any person may assist a vessel in distress, without a pilot on board, if such person shall deliver up the vessel to the first pilot who comes on board and offers to conduct the vessel.

§ 912. Any master of a vessel bearing towards the port or harbor of Mobile, except coasters and other vessels trading between the ports of Mobile, New Orleans, and Pensacola, who refuses to receive a pilot on board, is liable, on his arrival in the bay or harbor of Mobile, to pay the first pilot who offered his services outside the bar, and exhibited his license as pilot, if demanded by the master, one-half the rate of pilotage allowed a vessel of such draught.

§ 913. The master of a vessel in readiness to leave, must, if practicable, give notice to the pilot who conducted his vessel in, of his intention to leave. Where personal notice cannot be given the following is a substitute: vessels lying in the lower bay must hoist a jack at the foremast head twenty-four hours before leaving. All vessels going down from Mobile shall bring the north end of Dauphin island to bear west before they are allowed to employ any other pilot or pilots than those who conducted them in.

§ 914. If the master of a vessel retain a pilot on board of his vessel, the wind and weather permitting her going to sea, the pilot is entitled to receive three dollars per day for every day he is so detained. If any master of a vessel carries off a pilot from the bay or harbor of Mobile, he must pay such pilot two dollars per day for every day he is absent, and supply him with such provisions as is usual for the maintenance of masters of vessels, and the master, as well as the owner, is liable for the same; but if such vessel has laid to for the space of four hours after crossing the bar, and no pilot boat appear to receive such pilot on board; no such claim shall be allowed.
§ 915. Whenever a vessel is crossing over, or is inside either of the bars of the bay or harbor of Mobile, it is at the option of the master to take or refuse a pilot. If the master requires a pilot he must indicate it by a signal, and the nearest pilot boat must furnish a pilot, and the pilot so officiating is entitled to one-half the rate of pilotage allowed for a vessel of such draught.

Any pilot refusing to board a vessel, whenever required as aforesaid, must be deprived of his license, and forfeits one hundred dollars.

§ 916. It is the duty of every outer bay pilot to deliver to the master of any and every vessel approaching the bay or harbor of Mobile, as soon as he can board such vessel, all letters which may be sent to him for that purpose, on the person who requires the delivery of such letters paying or securing to the pilot the sum of forty dollars for such service, unless the pilot so employed to deliver letters is engaged as pilot for the vessel, in which event he is entitled to five dollars for the service.

§ 917. The master, owner or consignee of every ship or vessel, must pay the pilot who conducts a vessel into or out of the bay and harbor of Mobile at the following rates, for the actual draught of water of such vessel at the time of pilotage, viz:

On every vessel crossing the outer bar of Mobile bay drawing not more than ten feet water, two dollars and fifty cents per foot; on every vessel drawing ten, and not exceeding twelve feet water, two dollars and seventy-five cents, per foot; on all vessels drawing more than twelve feet, and not exceeding fourteen feet, three dollars per foot; and on all vessels drawing more than fourteen feet water, four dollars and fifty cents per foot. On all vessels crossing Dog river bar, of whatever draught of water, one dollar and fifty cents per foot.

§ 918. If any master of a vessel or water craft of any description, throws, causes, or permits to be thrown from on board such vessel or water craft, into the waters of the bay or harbor of Mobile, or within three miles of the outside of the outer bar of the harbor, any stone, gravel or
other ballast, he forfeits a sum not less than one thousand or more than two thousand dollars for every such offense, and may be imprisoned, not exceeding three months, at the discretion of the court. One-half the forfeiture to be paid to any one who first gives information of the offense to the commissioners, and the other half to the use of the commissioners.

§ 919. Upon the commissioners receiving satisfactory evidence of the offense specified in the preceding section, they must proceed to recover such forfeiture by process of attachment in the name of the State, which may be issued as other attachments, on the oath of the informer, and be levied on the vessel from which the offense was committed. The vessel may be replevied by the master, owner, or consignee, by giving bond payable to the State, in treble the amount of the penalty, with condition to have the vessel forthcoming, to satisfy such judgment as may be rendered in the suit.

§ 920. Every pilot having knowledge of the commission of the offense specified in the two preceding sections must, as soon as practicable thereafter, give information thereof to the commissioners, and failing so to do, must be deprived of his license, and be forever thereafter disqualified for the office of pilot of the bay or harbor of Mobile. The southern boundary or limit of the bay or harbor of Mobile is hereby declared to be the bar known as the outer bar, about two miles to the southward of Dauphin island.

§ 921. All branch pilots are appointed by the commissioners, and whenever a vacancy occurs in a branch, the person who has served the longest time as an apprentice, must, if deemed competent by the commissioners, be appointed to such vacancy; but no person can hold a branch who is not engaged in piloting.

§ 922. When any pilot boat, belonging to a different pilot than the one who may have conducted a vessel out to sea, takes such pilot off from such vessel, such pilot boat is entitled to one-third of the pilotage.

§ 923. The board of commissioners are hereby authorized in their own names, as commissioners, or in that of their
chairman as such, to sue for, and recover to their own use, any forfeiture which may accrue under this chapter, which is not otherwise specifically appropriated.

§ 924. The commissioners must preserve in a well bound book, a record of all their acts, and of the rules and regulations adopted by them, for the direction and government of the pilots. They must designate one of their number as chairman, and cause a record thereof to be made, and prescribe such fees for the services of the pilots, and impose such fines and penalties not inconsistent with the provisions of this chapter, as they may deem expedient. They must also preserve, upon record, a list of all persons appointed pilots by them, as well as of those whom they may declare to have forfeited their license. All persons interested must have access to and be permitted to take copies of the records, and copies thereof, certified by the chairman, are presumptive evidence of the facts stated therein.

§ 925. They must preserve on file all bonds and affidavits taken from pilots, and may, whenever they consider it necessary, require a new bond to be executed.

§ 926. They must keep their office in some suitable place, of which the public shall have notice, and may keep their books and papers in the office of the probate judge.

§ 927. The bonds aforesaid stand as a security for any injury caused by the negligence, or want of skill of the pilot, and may be put in suit in the name of any person aggrieved.

§ 928. Any person undertaking to act as pilot without a license as required by the provisions of this chapter, or after he has been notified by the commissioners that his license has been revoked, is guilty of a misdemeanor, and, on conviction, must be fined not less than one hundred dollars.

§ 929. The fees of the commissioners for services rendered are as follows: for every license granted, ten dollars; for taking and filing bond and affidavit, one dollar; giving copies from records for each hundred words, twenty cents; certifying the same, fifty cents.

Approved Dec. 25th, 1837.

Mobile, January 17th, 1838.

To the Mayor and Aldermen of the City of Mobile:

Gentlemen: — I take the liberty to inclose a copy of a charter to incorporate the "Mobile Aqueduct Company," obtained by me at the last session of the legislature. By a reference to this Act it will be seen that the Act of 1820
is revived, that the contract made by the corporation with me is confirmed, and that the privileges of it are authorized to be transferred to the new company. To carry this into effect, I propose to assign the contract to the company upon the following terms:

1st. That the corporation take as stock the amount for which the works were sold to me, say $26,000 00, and that they cancel the notes held by them, given by me, and that the corporation thereupon receive certificates of stock to the amount of $26,000 00, or in case the corporation decline taking the stock, that I be allowed to subscribe the same, and I pay the notes.

2d. That the company take from me the piece of ground at the creek, 3\(\frac{3}{4}\)th acres, purchased for the location of the steam engine, and the supply of water, and also that purchased of Charles Steel, 2\(\frac{1}{4}\)th acres, for the site of a reservoir, at the prices I bought at, with the costs of surveys, &c., already made, and which amount in all to $7,603 14.

3d. That the company pay me $10,000 00 for the privilege of the charter, in stock of the company, at par.

Under these conditions, so soon as $100,000 00 shall be subscribed by individuals, I hereby bind myself to assign the contract to the company.

Your ob't serv't,

HENRY HITCHCOCK.

The committee to whom was referred the proposition of Henry Hitchcock, Esq., on the subject of the city waterworks, beg leave to report the following resolution, and to recommend its adoption:

Resolved, By the mayor and aldermen of the city of Mobile, that on the organization of the " Mobile Aqueduct Company," incorporated by Act of the legislature, and approved Dec. 25th, 1837, the city will invest the notes of H. Hitchcock, Esq., amounting to twenty-six thousand dollars, in the stock of said company, and for certificates of stock to that amount, will cancel or surrender to H. Hitch-
cock, the said notes given in payment for the lease and materials of the city water works.

GEORGE WALTON.
MOSES RYAN.
JOHN FOWLER.
J. B. TODD.

This resolution was adopted by the Board.

NEW ORLEANS, January 29th, 1838.

HON. H. HITCHCOCK:

SIR:—You have again complimented me, by asking my opinion concerning "the best mode of introducing water from the Three Mile creek into the city of Mobile, the plan for the reservoir, steam engine and pumps, the length and bore of the main pipe, &c. &c., with the cost of the works, and their probable income."

I examined the creek last year, and found it to contain an abundant supply of excellent water—fully adequate to furnish a population of 50,000 or 60,000 persons with wholesome water for all domestic purposes, and at the same time to furnish an ample supply for all public objects, in cleaning streets and extinguishing fires.

The mode of introducing this water must be by constructing a reservoir about 1000 yards from the margin of the creek, where there is an eligible site; the reservoir to be filled by forcing pumps, and the water so obtained to be conveyed to the city, as far as Dauphin street, by a main pipe, 2700 yards in length.

It would be invidious and useless for me to give a plan for the reservoir, steam engine and pumps, not to be constructed by myself. This must be left to the engineer actually engaged; and their dimensions based on the quantity of water necessary for all public and private purposes.

In considering the cost and income of the works, it will be necessary to recollect that 10,000 feet of cast iron pipes have already been laid, which can be rendered available; and that there are 6000 feet 6-inch pipes on hand, thus considerably diminishing the outlay. And it will be equally essential to remember that, while the cost of materials and
labor are becoming gradually diminished, in the course of time, the demand for the water will be commensurate with the increased population of Mobile; so that the cost of constructing and maintaining the works must be gradually lessened, while the revenue arising from their use will be as certainly augmented. The estimate of the cost and income must be based on a knowledge of these facts.

I send you a plan of your city, that you may perceive the necessary distribution of pipes through the streets, and also a profile of the line of pipes from the creek, where the engine and pump-house should be erected, to the site of the reservoir, thence to Dauphin, and along Dauphin to the river. From the creek to the reservoir, 1000 yards of pipes of 10-inch bore will be required, and the main pipe from the reservoir into the city should be 12-inch bore. The pipes required in Dauphin street, 1,350 yards, should be 10 and 8-inch bore, being for about 2,400 yards. Fire plugs are to be erected along the line of the pipes, for the purpose of extinguishing fires and washing streets, and stop-cocks placed to shut off the water from the pipes for repairs, making attachments or cleaning them. The mean height to which the water has to be raised from the creek into the reservoir, is 40 feet. The site for the reservoir is 20 feet higher than the highest ground in the city. I have made a minute enumeration of all required to raise and distribute 600,000 gallons per day, and an estimate accordingly, including the reservoir, the engine and pumps, and the pump-house. But it is not necessary to give you the particulars in detail. You may, however, rest assured that I have endeavored to be accurate in every particular, and you can be satisfied of the result thus briefly given of the probable cost:

The whole outlay, exclusive of the land for the house and reservoir, would therefore be $120,000. The distribution (as set down) embraces a line of pipes from the pumps to the reservoir, thence to Dearborn in Dauphin street, thence along Dauphin street to the river. In Dearborn from Church street to Adams, and in Joachim street, the same distance, amounting in all to upwards of 425 miles of pipes including those necessary for fire plugs.

In ascertaining the probable income, we must calculate the annual cost of supplying the water, and the quantity of water likely to be required and consumed by the people of Mobile. As the creek water is of a very superior quality, and as all families capable of having it conveyed to their premises are almost certain to be customers, we may believe that at least 2000 will daily require its supply. Counting six persons in a family, and allowing each 30 gallons a day for every purpose, the quantity required per diem for consumption and supply will be 360,000 gallons.

To raise such a quantity into the reservoir and distribute it through the streets and hydrants, would not cost more annually than $5,000. And if a larger quantity be hereafter necessary, the annual cost will be very little increased, so that while an increased consumption of the water by families will certainly increase the profits of the works, the increased supply will augment their cost of maintenance. This difference must be greatly to the advantage of the corporation, and will be more sensibly felt in three or four years. At present, however, the probable income will be ascertained on the above data.

2,000 families, at $20, $40,000 00
Annual cost, 5,000 00
Receipt, $35,000 00
Interest on capital, $200,000, at 6½, 12,000 00
Net income, $23,000 00

You will perceive that had I assumed that 2,500 families would require water, as in a very few years will be the case, or had I assumed 25 or 30 dollars as the annual average
charge for each family, the clear income would be much greater.

In conclusion, I am clearly of opinion that the works can be easily constructed; that the creek can afford an abundant supply of limpid and soft water; that the Mobilians will generally use it, and that the works will shortly bring a handsome income.*

I have the honor to be your most obedient,

ALBERT STEIN.

AN ACT for the promotion of the health and convenience of the City of Mobile, by the introduction into said City, of a supply of wholesome Water, to be used for domestic purposes and the extinguishment of Fires.

This indenture, made and executed the twentieth day of September, in the year of our Lord, one thousand eight hundred and thirty-six, by and between James H. Caldwell, of the city of New Orleans, and State of Louisiana, of the first part, and the mayor and aldermen of the city of Mobile, of the second part, witnesseth: that the said James H. Caldwell, the party of the first part, for and in consideration of the covenants, agreements, and stipulations hereinafter contained, reserved and expressed, hath covenanted and agreed, and by these presents doth covenant and agree,

And the said James H. Caldwell, the party of the first part, doth hereby covenant and agree with the said party of the second part, that he will furnish and supply for the said city of Mobile, a sufficient quantity of gas to light the said city (at all times) when necessary and required of him, and to conduct the said gas in pipes, and render the same useful for lighting the said city to and at all points and places, wherever the said mayor and aldermen of the city of Mobile, or their successors in office, shall direct the same to be used: provided, the said James H.
