BULLETIN 5—October, 1954

Alabama Department of Agriculture and Industries

FRANK M. STEWART, Commissioner

M. D. GILMER, Assistant Commissioner

cooperating with

United States Department of Agriculture

EZRA TAFT BENSON, Secretary

O. V. WELLS, Administrator, Agricultural Marketing Service

S. R. NEWELL, Director and Chairman, Crop Reporting Board

This bulletin was compiled by

Alabama Crop Reporting Service

J. C. GARRETT, Agricultural Statistician in Charge

Wm. B. HUDSON, Agricultural Statistician

SAM L. GUY, Agricultural Statistician

T. L. CRYER, Agricultural Statistician

The clerical force of the Service includes Miss Nan Burts (Head Clerk), Mrs. Pat Shannon, Miss Maudie Amazon, Mrs. Lucile Adams, Miss Marion Gorrie, Mrs. Wanda Payne, Mrs. Martha Davis and Frank Stripling

I N T R O D U C T I O N

This issue of **Alabama Agricultural Statistics** is the fifth of the series that began in 1948. Most tables in this issue contain data for the 10 year period 1944-53. Historical series for many tables may be found in the bulletin of February 1948.

Alabama Agricultural Statistics brings together the more important series of current and historical data concerning agriculture in the State. An effort has been made to publish information most often requested by farmers, the general public, and other Government Agencies.

Most of the statistics in this bulletin are estimates based on sample data and are not actual enumerations. The latest available information has been compiled in this issue, but 1953 data are preliminary and subject to revision. In some of the tables, 1951 and 1952 estimates have been revised from those previously published.

To provide statistical information that is both accurate and timely is the job of the Crop Reporting Service. This office collects informa-

tion by sampling—in much the same way a cotton classer judges a whole bale of cotton by examining a small sample of it. At various times during the year the Crop Reporting Service receives reports from nearly 15,000 Alabama farmers, processors, and businessmen giving information about crops, livestock, prices of commodities that farmers buy and sell, and other related subjects. These reporters serve on a voluntary basis and are the backbone of our crop reporting system. Although crop reporters supply the basic data for these estimates, the Census and other Federal and State agencies are important sources of information. In addition field observations and personal interviews assist the statistician in interpreting data.

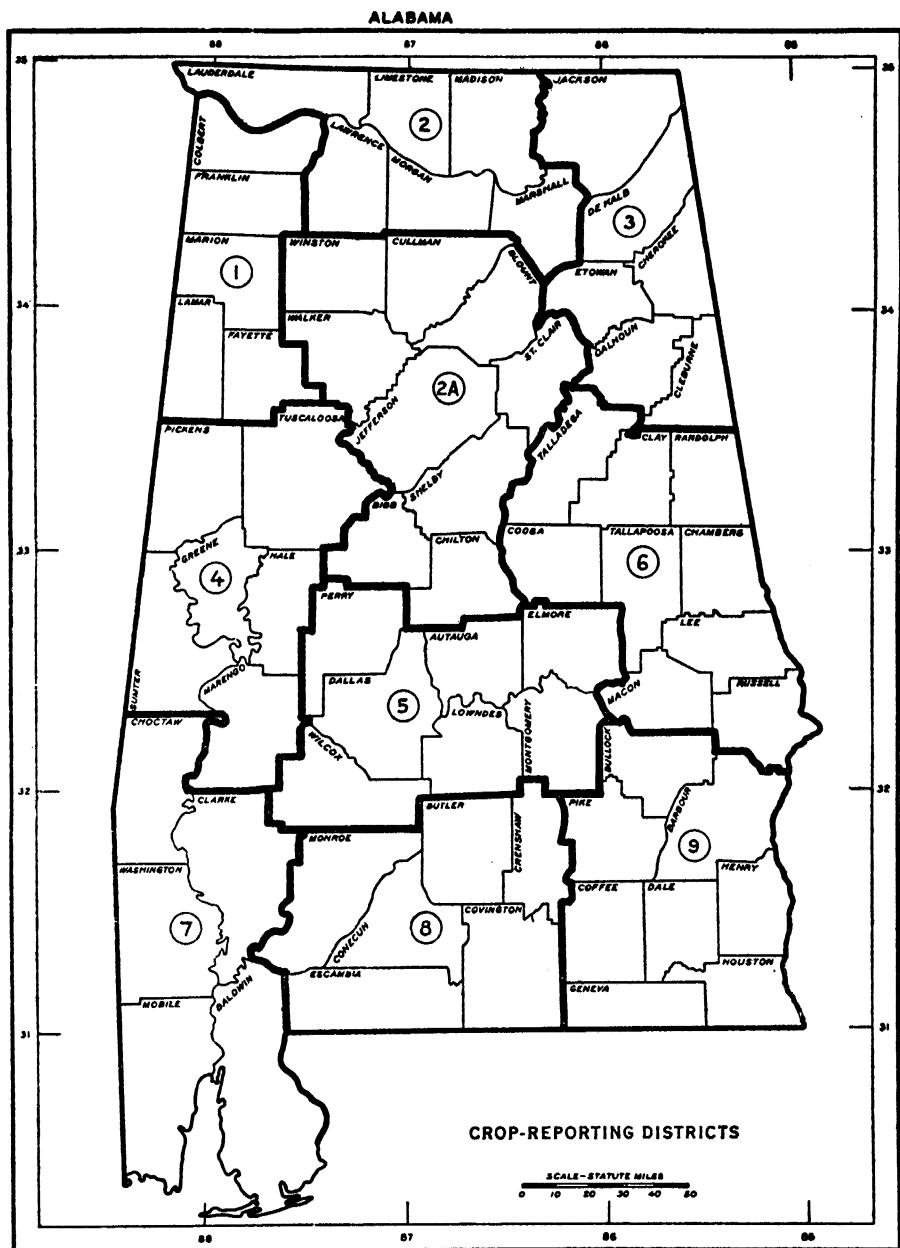

The Alabama Cooperative Crop Reporting Service publishes official estimates of crop production, prices, and other agricultural information. Anyone desiring these reports may receive them without charge by writing to J. C. Garrett, Agricultural Statistician, Post Office Box 1071, Montgomery, Alabama. The following is a list of the more important reports and the approximate dates of their release:

Report	Released
Weekly Crop-Weather Summary.....	Each Tuesday
Broiler Chick Report.....	Each Wednesday
Mid-Month Farm Commodity Prices.....	1st of each month
Cotton Report.....	8th of the month—May, July through December
General Crop Report.....	12th of month—March through November
Livestock Slaughter Report.....	8th of month
Commercial Hatchery Report.....	20th of month
Pig Crop Report.....	June 24 and December 24
Annual Crop Summary	December 20
Annual Livestock Inventory	February 18
Prospective Plantings.....	March 20

Special reports on pasture and cover crop seeds, honey and bees, hybrid corn acreage, dairy products, farm income, truck crops, fertilizer sales, and county estimates for cotton, corn, peanuts, soybeans, cattle, milk cows, hogs, and chickens..... } Various times throughout the year

ALABAMA AGRICULTURAL STATISTICS

3

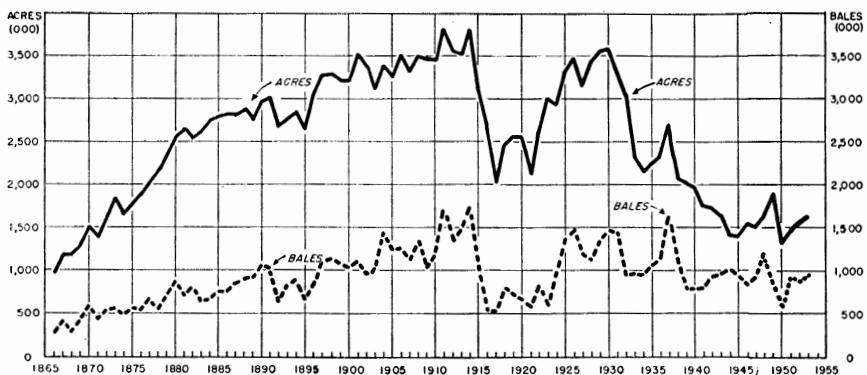

U.S. DEPARTMENT OF AGRICULTURE

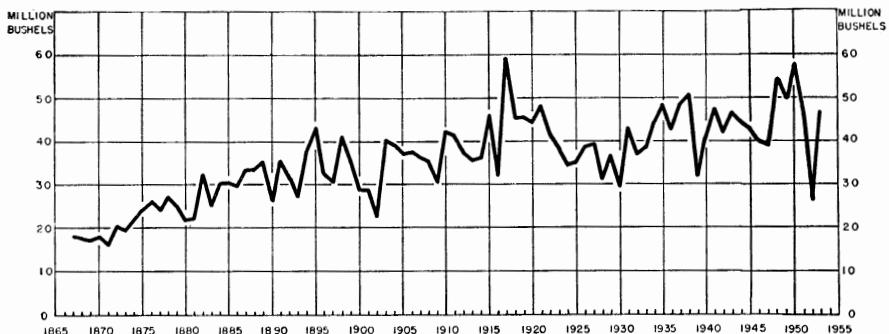

Reports from farmers are tabulated by counties and districts. This aids in interpreting the averages and in making calculations of the State estimates.

ALABAMA AGRICULTURAL STATISTICS

		Production per milk cow ²		Per- centage of fat in milk	Total production on farms ³		
		Milk	Milkfat		Milk	Milkfat	
1951	372	3,440	155	4.5	1,280	58	
1952	384	3,400	151	4.45	1,306	58	
1953	405	3,400	151	4.45	1,377	61	

¹Average number during year, heifers that have not freshened excluded.²Excludes milk sucked by calves and milk produced by cows not on farms.*Butter churned on farms and value of milk production, 1951-53*

Year	Butter churned on farms	Value of milk used for farm consumption and farm butter ¹	Gross farm income from dairy products ²	Farm value of milk produced ³
				Thous. lbs. — — — Thousand dollars — — —
1951	26,500	48,300	75,610	76,800
1952	25,000	50,425	79,872	81,103
1953	24,600	48,887	79,890	81,105

¹Milk used for fluid consumption and home-made butter on farms where produced valued at average per unit returns for milk utilized in all forms of sale.²Cash receipts from marketings of milk and cream plus value of milk used for farm consumption and farm butter churned.³Gross farm income plus value of milk fed to calves.*Milk used on farms where produced, 1951-53*

Year	Fed to calves	Consumed as fluid milk or cream	Used for farm churned butter	Total utilized on farms
			— — — Million pounds — — —	— — —
1951	20	328	477	825
1952	20	344	468	832
1953	21	370	460	851

Milk marketed by farmers and average prices received, 1951-53

Year	Milk marketed by farmers				Average per unit cash returns from combined milk and cream marketings ³	
	Delivered to plants and dealers		Retailled by farmers as milk and cream ¹	Total in combined milk and cream marketings ²	Per 100	Per lb.
	As whole milk	As farm- skimmed cream			lb. milk	milkfat
1951	365	20	70	455	6.00	1.33
1952	385	20	69	474	6.21	1.40
1953	442	16	68	526	5.89	1.32

¹Approximations based on health officers' reports of sources of fluid milk in villages, towns, and small cities, and information on sales by producer-distributors.²Computed from the cash receipts from marketings of all milk and cream divided by the quantity of milk or milkfat represented in the marketings.
