P R E F A C E

In accordance with State law, it is a pleasure to present this issue of Alabama Agricultural Statistics which is the twelfth of a series that began in 1948. Bulletins in this series present information necessary to keep farmers, agricultural leaders and related interests fully informed for making plans and decisions to meet changes in the State's dynamic agriculture.

Agriculture is undergoing many technological changes, changes which affect the production and processing of food, changes that can and will affect the demand and supply of many farm products. This trend, so evident at the present time, makes the compilation of statistics dealing with agriculture of far more importance to the farmer and businessman than ever before.

Most of the tables in earlier bulletins of the series Alabama Agricultural Statistics contain data for a 10-year period. Data now presented update the more important series in bulletin 11 published in July 1962. All data carried in this bulletin have been revised to the level indicated by the 1964 Census of Agriculture.

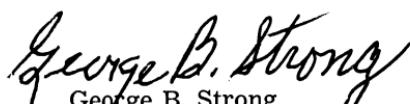

The material presented herein has been prepared for publication by the Alabama Crop and Livestock Reporting Service, which reflects the cooperative efforts of the Alabama and United States Departments of Agriculture. Federal funds provide facilities for a basic program of crop, livestock and price estimates for the State as a part of the National program. State funds make it possible to prepare and publish more detailed data, such as county estimates, and special reports on commodities of local importance. The county tonnage report issued for the fertilizer industry is an example.

Most of the statistics in this bulletin are estimates based on sample data and are not enumerations. It is important to acknowledge that these estimates are based largely on replies to various mail inquiries from many Alabama farmers and businessmen who buy, sell and process farm commodities.

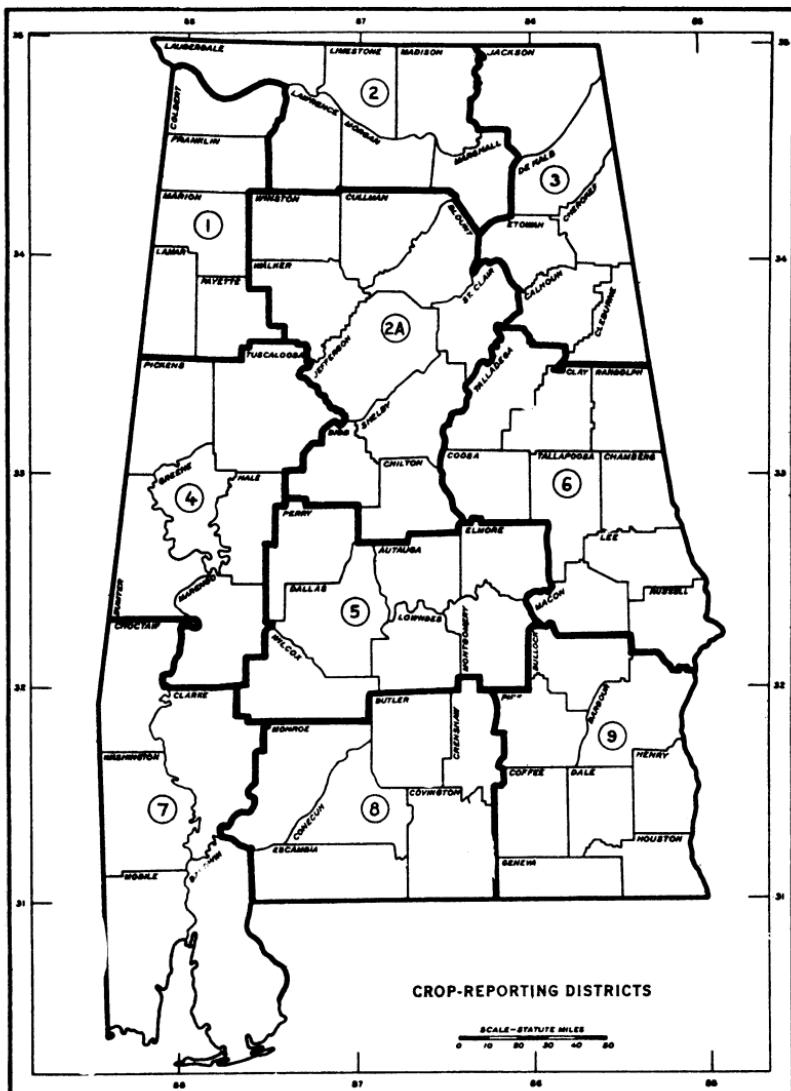

We want to acknowledge and offer our sincere thanks for the public service rendered by all reporters and cooperating agencies.

Richard Beard
Richard "Dick" Beard
Commissioner of Agriculture
and Industries

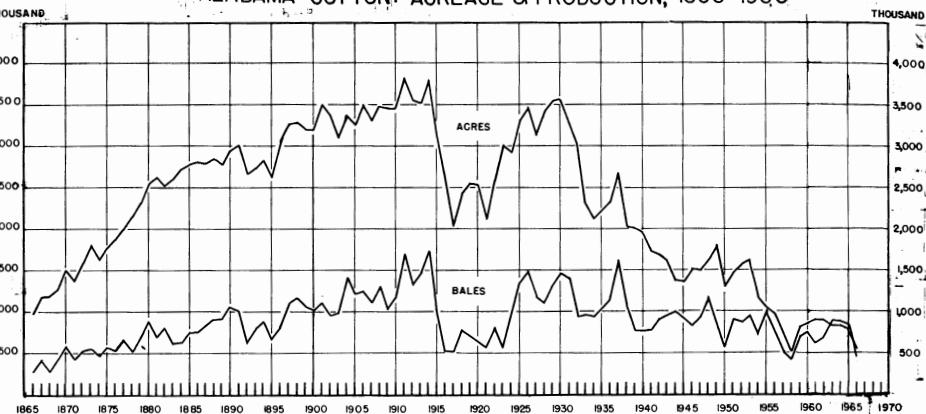

George B. Strong
George B. Strong
Agricultural Statistician
In Charge

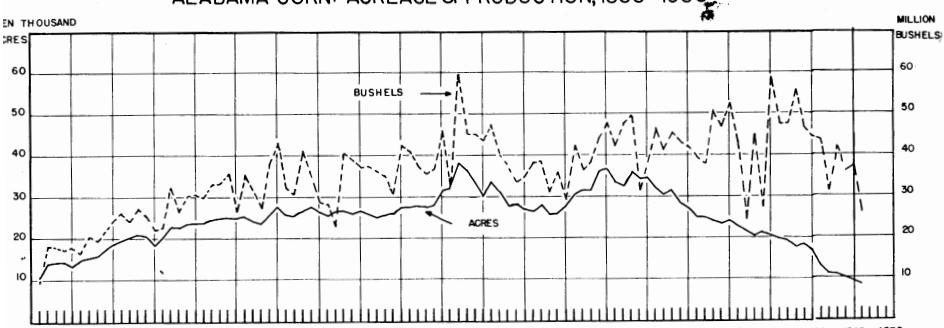

Reports from farmers are tabulated by counties and districts. This aids in interpreting the averages and in making calculations of the State estimates.

Release Dates for Reports Issued

The Alabama Crop and Livestock Reporting Service publishes official estimates of crop and livestock production, prices, and related information for Alabama and the United States. The more important reports issued and the approximate date on which they become available are listed below. Persons desiring one or more of these reports may obtain them without charge from:

Agricultural Statistician
P. O. Box 1071
Montgomery, Alabama 36102

Report	Frequency of report	Approximate date available ¹
1. CROP WEATHER	Weekly	Monday each week—3:00 p.m.
2. CROPS ²		
a. Prospective plantings	Annual	18th March
b. Grain, hay, peanuts	Monthly	10th July thru December
c. Cotton	Monthly	8th May, July thru December
d. Grain stocks	Quarterly	24th January, April, July, October
e. Pecans	Monthly	10th August thru December
f. Vegetables	Monthly	8th of each month
3. LIVESTOCK		
a. Inventory, January 1 ³	Annual	13th February
b. Cattle on feed	Quarterly	17th January, April, July, October
c. Slaughter	Monthly	30th each month
d. Calf crop	Biannual	20th February, July
e. Pig crop	Biannual	22nd June and December
f. Wool	Biannual	19th March, 27th July
g. Milk production	Monthly	10th each month
h. Manufactured dairy products	Annual	30th July
4. POULTRY		"
a. Inventory, January 1 ³	Annual	13th February
b. Egg production	Monthly	10th each month
c. Hatchery	Monthly	16th each month
d. Broilers	Weekly	Wednesday each week
e. Pullet Placements	Monthly	15th each month
5. INCOME, VALUE		
a. Crops	Biannual	4th May, 18th December
b. Livestock, poultry	Biannual	13th February, 29th April
c. Dairy	Annual	20th April
d. Cash receipts	Biannual	March and August
6. OTHER		
a. Farm labor	Monthly	10th each month
b. Honey	Triannual	27th January, 8th July and October
c. Seeds	Annual	18th December
d. Prices received—paid	Monthly	30th each month
e. Fertilizer	Biannual	April and October

¹ Statistical Reporting Service, Crop Reporting Board, United States Department of Agriculture, Washington, D. C. dates. Most Alabama releases are a day later.

² By counties for previous season for wheat in February; cotton, corn, and soybeans in July; peanuts in August.

³ By counties in March.

⁴ Published in Farm Income Situation.

Oats—	
acreage, yield, production and value	37
farm stocks	37
mid-month prices	74
production, farm disposition and value	37
Pasture condition	35
Peaches—production and value	48
Peanuts—	
acreage utilization	22
picked and threshed—	
acreage, yield, production and value	22
by counties: acreage, yield, and production	24-27
map showing distribution	32
mid-month prices	75
production and farm disposition	22
hay—acreage, yield and production	44
Pecans—	
improved: production and value	48
seedling: production and value	48
total production and value	48
Pigs—	
inventory, January 1	58
spring and fall pig crops	59
Potatoes, Irish—	
Baldwin area —	
acreage, yield, production and value	42
production and farm disposition	42
other areas—	
acreage, yield, production and value	42
production and farm disposition	43
all—mid-month prices	75
Poultry—combined income	70
Poultry—(see individual species)	67-73
Prices paid by farmers—mid-month prices of feed items	78-79
Prices received by farmers—	
index of prices received	80
mid-month prices	74-77
Production rank—Alabama's production rank among states	7
Scratch grain—mid-month prices paid by farmers	79
Seed crops	45
Sheep—	
inventory, January 1—	
number, value and classes	57
production, marketings and income	57
Silage—	
corn—acreage, yield and production	15
sorghums—acreage, yield and production	34

INDEX—Continued
